PROFILE

Data analyst with 4 years of experience turning operational and customer data into clear dashboards, focused insights, and practical recommendations. Strong in SQL, Python, Excel, Tableau, and stakeholder communication.

KEY SKILLS

SQL and data modeling	Python, pandas, NumPy
Tableau and Power BI	A/B testing and KPI design
Excel automation	Data cleaning and QA

EXPERIENCE

Data Analyst | InsightBridge Retail | Mar 2023 - Present

- Built weekly trading dashboards used by commercial and operations teams across 42 stores.
- Improved product availability reporting by joining stock, sales, and supplier datasets into one model.
- Reduced recurring report preparation time from 6 hours to under 45 minutes using Python scripts.
- Presented customer retention analysis that supported a new loyalty campaign for inactive buyers.

Junior Data Analyst | Northline Services | Jul 2021 - Feb 2023

- Maintained KPI reports for customer support, fulfilment, refunds, and website performance.
- Created SQL checks that flagged missing, duplicated, and delayed records before daily reporting.
- Partnered with managers to define simple metrics for response time and case resolution quality.

SELECTED PROJECTS

- Customer churn model using logistic regression and interpretable feature analysis.
- Automated sales anomaly report sent weekly to category managers.

EDUCATION

BSc Business Analytics | University of Manchester | 2018 - 2021

CERTIFICATIONS

Google Data Analytics Certificate | Tableau Desktop Specialist
